SUMMARY

Full Stack Developer with hands-on experience at NIELIT and IIT Patna. At NIELIT, developed a secure WiFi Registration System with admin-controlled user verification workflow. At IIT Patna, built a dynamic E-Learning website using HTML, CSS, JavaScript, and backend technologies. Strong in Python DSA with excellent problem-solving skills.

EDUCATION

- | | |
|--|---------------------|
| • B.Tech in Computer Science and Engineering
Institute of Technology Management (AKTU), Gorakhpur, Uttar Pradesh | Aug 2022 – Jul 2025 |
| • Diploma in Electrical Engineering
Little Flower Polytechnic College, Gorakhpur (BTEUP) | Aug 2020 – Jun 2022 |
| • Intermediate (PCM)
St. Andrews Inter College, Gorakhpur, Uttar Pradesh | Apr 2018 – Mar 2020 |
| • High School
St. Xavier's School, Azad Chowk, Gorakhpur, Uttar Pradesh | Apr 2016 – Mar 2018 |

TECHNICAL SKILLS

- **Languages:** Python (3.x), Java, JavaScript (ES6), HTML5, CSS3
- **Frameworks & Libraries:** Django, Spring Boot, React.js, Vite
- **Databases:** MySQL, PostgreSQL
- **Developer Tools:** Git, GitHub, VS Code, IntelliJ IDEA
- **Concepts:** Data Structures & Algorithms (DSA), DBMS, Operating Systems, Computer Networks, RESTful APIs, Microservices
- **Methodologies:** Agile Scrum, Test-Driven Development (TDD)
- **Additional Tools:** Firebase, OpenCV, TensorFlow, Hadoop, Apache Spark

EXPERIENCE

- | | |
|--|---------------------|
| Full Stack Web Development Intern – IIT Patna | Jun 2024 – Aug 2024 |
| <ul style="list-style-type: none">• Engineered an E-Learning platform with responsive UI (React.js) and scalable backend (Django, Spring Boot).• Developed RESTful APIs and integrated MySQL/PostgreSQL databases with secure authentication and Role-Based Access Control.• Enhanced platform security by implementing encryption protocols and conducting penetration testing.• Worked in an Agile Scrum environment — participated in Sprint Planning, Daily Stand-ups, and Sprint Retrospectives.• Applied Test-Driven Development (TDD) using pytest to ensure high code quality and reduce production bugs. | |
| Work Based Learning (WBL) Intern - NIELIT Gorakhpur | Aug 2025 – Feb 2026 |
| <ul style="list-style-type: none">• Developed a Wi-Fi Registration & Access Management System using Django framework.• Implemented OTP-based email verification system with 5-minute expiry and resend functionality.• Designed and managed role-based registration modules for Employee, Student, and Guest users.• Integrated admin approval workflow and secure credential generation based on user data. | |

PROJECT

Real-Time Facial Expression Detection – Health Monitoring App

- Developed a responsive frontend (**React.js, Vite**) integrated with backend APIs (**Python, Django**) for real-time health monitoring.
- Developed facial recognition models with OpenCV and TensorFlow.
- Optimized model performance using tuning techniques and dataset augmentation.

SOFT-SKILLS

- Problem-Solving & Analytical Thinking
- Agile Team Collaboration
- Leadership & Project Coordination

CERTIFICATION & ACHIEVEMENTS

- Solved 100+ DSA problems on GeeksforGeeks & LeetCode
- Led a 10-member team as Discipline Head at ITM Tech Fest
- Deployed real-time health monitoring app using React.js & Firebase
